

Seminars & Workshops

Benefits of Laser Welding for Today's Retail Jewelers

Prerequisites: None

Requirements: Non-Laser Owner

Yours to Keep: Jewelry Repair Applications DVD

Times: Half Day

Length of Event: 4 hours

Max. Attendees: up to 20

Fee: \$150

Seminar: #990-841

Discover the benefits of laser welding and how this technology can become a valuable profit center for your business' marketing strategy.

This workshop will include a comprehensive review of laser technology. Common applications include: heat-sensitive materials and eyewear, how to integrate laser technology into a repair center strategy, educational and training opportunities and pricing of services. The attendee will discover how laser technology can be applied to virtually any jewelry repair or custom design opportunity.

Seminar Highlights:

- Live laser demonstrations
- FAQ discussions with LaserStar Application Specialists
- Attendees will have the opportunity to gain hands-on experience
- LaserStar's Production Facility Tour (RI only)
- Continental Breakfast and Lunch

Seminar (#990-841) Dates and Locations - Winter 2006

RI LaserStar Center (max. 20)

Wednesday, February 22nd

To register online, please go to www.laserstar.net/seminars.html or call any one of our national LaserStar Centers.

Advanced User's Applications Workshop (Part #1)

Prerequisites: Own a Laser Welding System
Requirements: Initial Applications Training
Yours to Keep: Tips, Tricks & Techniques Handbook
Times: 9:00 am - 4:30 pm (60 minute lunch/break)

Length of Event: 6 hours
Max. Attendees: 20
Fee: \$150.00
Seminar: #990-842

For an up-to-date schedule, please go to www.laserstar.net, Email: workshops@laserstar.net or call 401-438-1500.

Discover some of the latest "real-world" techniques from LaserStar's Application Specialists and other experienced owners in this dynamic "idea sharing" event. Topics of discussion will include: parameter settings, custom fabrication, restoration techniques, heat-sensitive applications, eyewear and watch repair, common alloys, benefits of Pulse Performance Profile Technology (P³), re-tipping techniques, as well as many other common and sometimes uncommon welding tasks.

Each workshop will strive to address the attendees specific "hot-topics", objectives and areas of specific interest.

Course Highlights:

- Master the advanced skill sets for profitable laser welding.
- Comprehensive Laser Safety Presentation / Laser Institute of America Approved
- Attendees will have the opportunity to share ideas with other laser owners
- LaserStar's Production Facility Tour (RI only)
- Continental Breakfast and Lunch

Advanced User's Profit Center Workshop (Part #2)

Prerequisites: Own a Laser Welding System
Requirements: Initial Applications Training
Yours to Keep: Tips, Tricks & Techniques Handbook
Times: 8:30 am - 12:30 pm

Length of Event: 4 hours
Max. Attendees: 20
Fee: \$95.00
Seminar: #990-843

For an up-to-date schedule, please go to www.laserstar.net, Email: workshops@laserstar.net or call 401-438-1500.

Our highly-trained instructors encourage you to bring your most difficult, troublesome repair jobs! Gain "powerful tips" as they demonstrate and explain the "how-to" methods to successfully complete the repair. Additional topics of discussion will include: pricing of services, media and marketing promotions, profit center strategies, showroom staff training tips, review of LaserStar's Media Promotion Kits and services. Listen firsthand to other owner's success stories and quickly learn the knowledge you need to sell the benefits of laser technology with confidence.

Seminar Highlights:

- Live jewelry repair demonstrations - bring your most difficult jobs!
- Advertising and Marketing Strategies including successful examples
- Review all the media tools available from LaserStar's web site
- Share ideas with other laser owners and application experts
- Continental Breakfast
